

Central Water Treatment Plant Raw Watermain Project Construction Update #7 – 11/07/2025

What has happened during the past week?

- Directional drilling for the new watermain along North Frontage Road is complete. Crews will restore the roadway with aggregate base in front of the water treatment plant and reopen the road to thru traffic.
- The installation of concrete curbs and placement of aggregate road base is complete.

What is scheduled for the week of November 10th?

- Forest Street & 7th Street - The first layer of asphalt pavement will be placed on Tuesday and Wednesday, weather permitting. Crews will return in the spring to mill 2 inches off the remaining half of the roadway and apply the final layer of asphalt across the full width.
- Yards will be restored with topsoil and sprayed with temporary mulch to stabilize soil over winter. Crews will return in the spring to seed the yards once the growing season begins.
- Asphalt patching in front of the Water Treatment Plant on North Frontage Road will be completed on Wednesday, Weather permitting.

Important Notes

- Please refrain from parking on streets under construction from 7 AM to 7 PM.
- During construction hours (7 AM to 7 PM), access will be maintained but may be delayed.

Tips of the Week

- Please follow posted detour and warning signs.
- Reduce your speed and be cautious of uneven ground.
- Remain attentive—look out for signs, construction equipment, and workers.
- If you are near construction areas, make sure to establish eye contact with machine operators before moving forward.
- Remind children to avoid the construction site, machinery, and piles of materials.
- Access may vary throughout the day as work continues, so thank you for being patient.
