

2026 Mill & Overlay Program Update #3 – 5/22/26

What has happened this past week?

- Continued pouring new concrete curb & gutter.
- Continued patching bituminous in front of curb & gutter.
- Continued backfilling curb & gutter with top soil.
- Completed adjustment of select catch basins and manholes throughout the project.

What is scheduled for next week?

- Continue pouring pedestrian ramps.
- Continue patching bituminous in front of curb & gutter.
- Continue backfilling curb & gutter with top soil (application of compost seed forthcoming).

Notes

- 1) ***My apologies if any irrigation lines or underground fences were hit during the curb repair process. Infrastructure such as these are considered “guests” within the right of way and are the responsibility of the homeowner to repair. Please reference the first project notification letter mailed to your residence alerting you of this policy.***
- 2) ***Milling of the pavement is scheduled to occur the first week in June. Please do not park on the street from 6am to dusk during the milling and paving phase of the project. Access to your driveway will continue however expect short delays while those operations pass through your street. The newly paved blacktop can be driven on once it has been rolled (compacted). Paving operations will occur “a few days” after the milling operations.***

Questions or Concerns?

- Project management services are being provided by the City’s Engineering Department. Please call the Assistant City Engineer at (651) 480-2369 with project related questions and concerns.

Spread the Word & Encourage Updates!

- Please make sure to share this information with your neighbors and tenants. Feel free to encourage them to obtain a copy of the Construction Update if they have not already done so! Typically, new updates are posted on Friday.
