

2026 15th & Bailly Stormwater Basin Project

Update #6 – 6/26/26

What has happened this past week?

- Working through a revised schedule with contractor.

What is scheduled for next week?

- Work will begin again the week of July 6th.

Note

- 1) The project is moving much slower than originally anticipated. The City is actively working with the Contractor to obtain a revised schedule moving forward. The Contractor will be back on site the week of July 6th to install manhole structures, plant trees, and restore the basin. The Contractor is also responsible for re-paving the damaged trail and pedestrian ramp. Thank you for your patience.

Questions or Concerns?

- Project management services are being provided by the City's Engineering Department. Please call the Assistant City Engineer at (651) 480-2369 with project related questions and concerns.

Spread the Word & Encourage Updates!

- Please make sure to share this information with your neighbors and tenants. Feel free to encourage them to obtain a copy of the Construction Update if they have not already done so! Typically, new updates are posted on Friday.
