

2026 15th & Baily Stormwater Basin Project Update #2 – 5/29/26

What has happened this past week?

- Began excavation for stormwater basin.

Above: Excavating pond and hauling out excess soil.

What is scheduled for next week?

- Continue excavation for stormwater basin.
- Continue hauling out excess soil.

Note: Next week will likely be the most disruptive part of the project. Trucks have been informed to stay on collector streets (ie. Hwy 61, 15th St, Tyler St). Contractor anticipates hauling for approximately 3 days, weather permitting. The City understands this project is an inconvenience and appreciates your cooperation and patience as we install this basin to improve water quality in your area. Thank you!

Questions or Concerns?

- Project management services are being provided by the City's Engineering Department. Please call the Assistant City Engineer at (651) 480-2369 with project related questions and concerns.

Spread the Word & Encourage Updates!

- Please make sure to share this information with your neighbors and tenants. Feel free to encourage them to obtain a copy of the Construction Update if they have not already done so! Typically, new updates are posted on Friday.
