

## Central Water Treatment Plant Raw Watermain Project Construction Update #8 - 11/14/2025

### What has happened during the past week?

- The first asphalt layer is paved and roads are open to traffic.
- A temporary asphalt wedge has been installed along the curbline to protect the curb from plow damage over the winter.

### What is scheduled for the week of November 17<sup>th</sup>?

- Crews will mill the centerline joint for a smooth pavement transition. Crews will return in the spring to remove the temporary asphalt wedge and 2 inches from the rest of the roadway before applying the final asphalt layer.
- Yards will be covered with topsoil and temporary mulch for winter, with seeding to follow in spring.
- Site cleanup and street sweeping are scheduled for Wednesday; avoid parking on streets until sweeping is finished.

### Important Notes

- Please refrain from parking on streets under construction from 7 AM to 7 PM.
- During construction hours (7 AM to 7 PM), access will be maintained but may be delayed.

### **Tips of the Week**

- Please follow posted detour and warning signs.
- Reduce your speed and be cautious of uneven ground.
- Remain attentive—look out for signs, construction equipment, and workers.
- If you are near construction areas, make sure to establish eye contact with machine operators before moving forward.
- Remind children to avoid the construction site, machinery, and piles of materials.
- Access may vary throughout the day as work continues, so thank you for being patient.
